Address: Qilin Hui, Xindu District, Xingtai City, Hebei Province, China

Zip Code: 054000

Xingtai Jinhu Technology Co., LTD located in Xingtai City, Hebei Province, is one of the production bases of automotive rubber and plastic products in China. The company mainly produces and sells mudflaps, silicone hose, EPDM hose, NBR hose, EPDM sealing strip, PVC sealing strip, silicone sealing strip, blind brick, PVC profiles with nearly 20 years of experience in seal production and development. The factory area of the company is 55,000 square meters, is a well-known Hebei Province production, development and sales in one of the all-round enterprises.

The company has two domestic advanced four composite production lines, four composite production lines, three single extrusion production lines, two rubber hose production lines, and 30 flat vulcanization machines, the annual production of 6 million meters of sealing strips and rubber hose 500,000 meters.

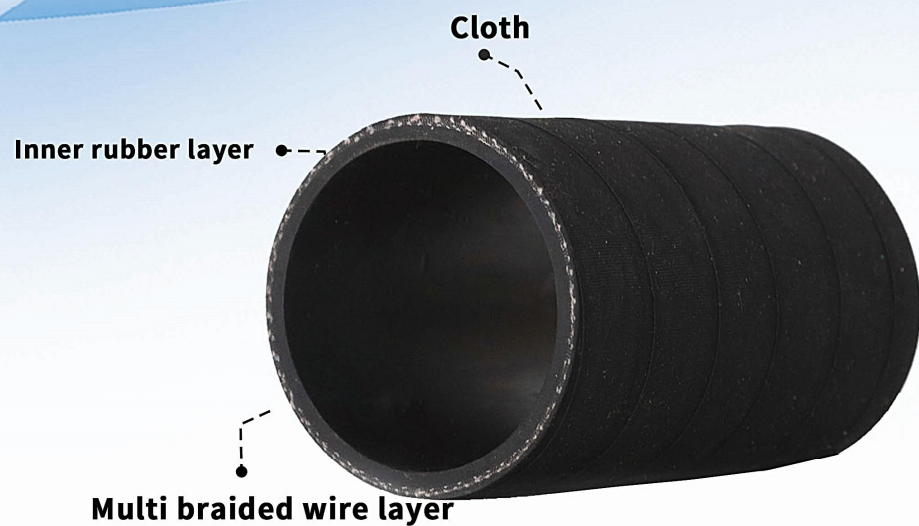

The products are divided into four categories, more than 300 varieties, and have the ability to support the whole vehicle with cars, heavy vehicles, light vehicles, minicars, and new energy electric vehicles. And exported to Germany, the United States, the United Kingdom, Russia, Poland and other more than 20 countries.

The company tenet of "Integrity, Profession, Customer First", has been using international standards to strictly demand themselves, to provide customers with professional and high-quality services, continuous progress and innovation in the industry, committed to creating a benchmark enterprise in the industry to become an influential international brand.

RUBBER HOSE

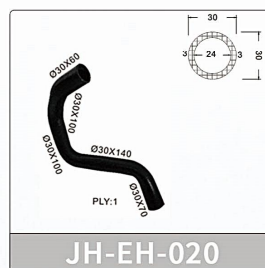

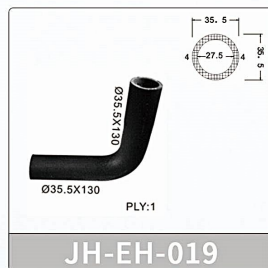

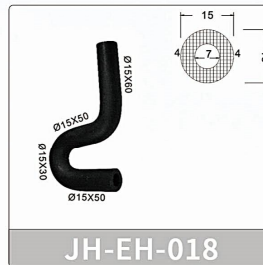

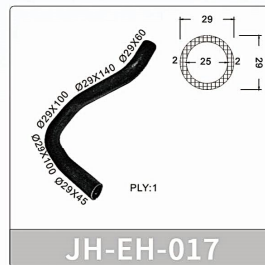

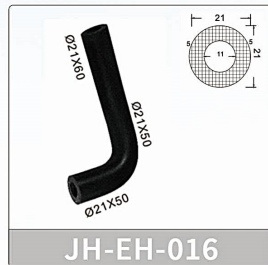

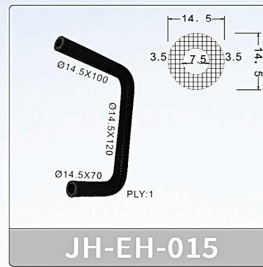

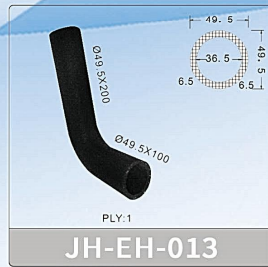

RUBBER HOSE

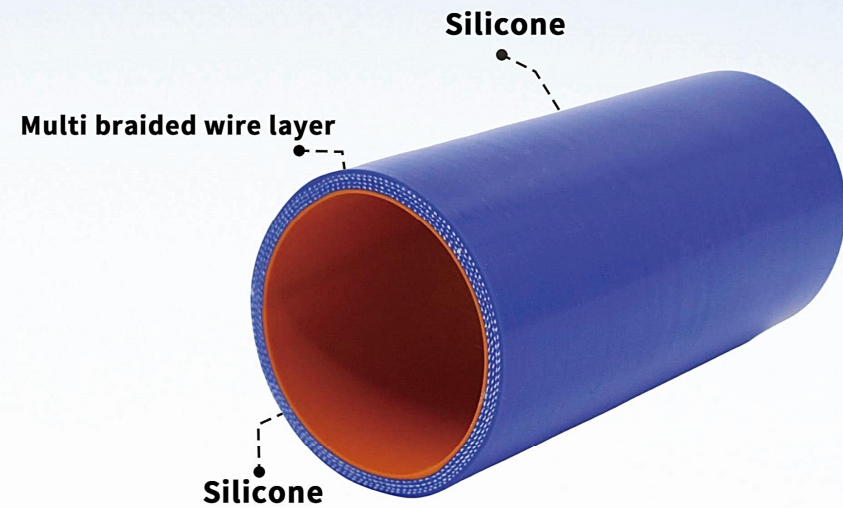

Product Features	Material Characteristics
Excellent Performance in Delivering Oils	Corrosion Resistance
Long Service Life	High Temperature Resistance
Strong and Durable	Wear Resistance
Easy to Clean	Anti-Aging
	UV and Ozone Resistance

RUBBER HOSE

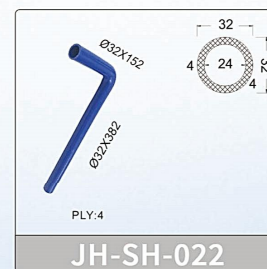

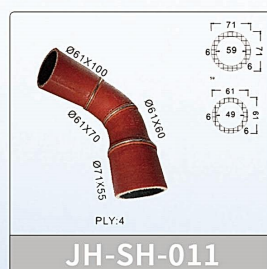

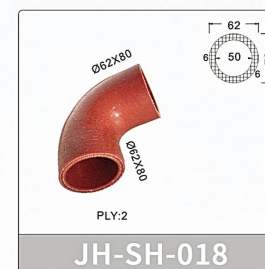

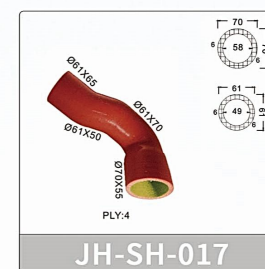

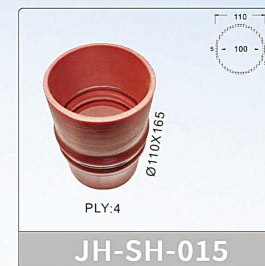

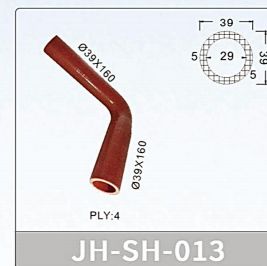

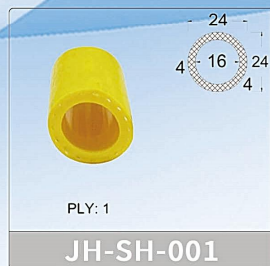

SILICONE HOSE

Product Features	Material Characteristics
Heavy Wall Design	Anti-Aging
Extreme Pressure Tolerance	Corrosion Resistance
Ultra Flexible	High-temperature Resistance
Excellent Tensile Strength	Anti-Shock
	No Smell
	No Toxicity
	Electrochemical Degradation Resistance
	UV and Ozone Resistance
